Test Exam
Algorithms and Data Structures

Jacob Trier Frederiksen & Anders Kalhauge

Spring 2019

This Test Exam is on Tuesday, April 23$^{\text{rd}}$, 08:30-12:00.

Be there on time.

NB: We wish to emphasize that this Exam is for your own benefit, so that you may get a real view of where you stand w.r.t. readiness for the upcoming final exam. You will not be graded, but merely have an indication of whether you are at a 'pass' or 'fail' level. Do youselves a favor, and complete this test, on your own, individually.

This Test Exam is not mandatory, but will serve the purpose of an self-evaluation tool.

You can use your computer with tools, and the internet for reference material. However, you should *not* communicate with others. Thus, you should refrain from using services as Facebook, Messenger, Skype, etc. Please close all communication services during the test. Talking with your classmates is disallowed during the test.

Your answers shall be handed in on paper. Please label any scratch paper with calculations/text/drawing clearly, if you need more space than the test sheets alone.
